Rehabilitation Centers

Our interdisciplinary approach ensures a tapestry of care that is both comprehensive and gracefully orchestrated. In addition to our respiratory services, we offer a full spectrum of clinical care and have a dedicated nurse practitioner in-house. We are well-equipped to handle even the most clinically complex cases

Highlights of our newly renovated, state-of-the-art center:

Private Subacute Suites

Atlas at Cedar Grove is a hub for comprehensive physical, occupational and speech therapy. To ensure the highest standards of recovery, our subacute unit features 28 private rooms, piped in oxygen and the latest rehab technology.

Long-Term Care

With 120 dedicated long-term care beds, our LTC Unit offers unparalleled medical support and a strong sense of community. Amenities include engaging activities offered 7 days a week, sensory programs run by compassionate enrichment staff, a restaurant-style dining experience, salon services, a lovely gazebo area, and veteran-specific programming.

Excellence In Respiratory Care

Our core services:

- Largest Ventilator Unit in New Jersey with 32 Beds
- Physician Led Pulmonary Care Offering Full Spectrum of Lung Health Support
- Ventilator Liberation with Close Monitoring
- Long-Term Care Ventilator Support
- 24-Hour Respiratory Therapist Onsite
- High Flow Oxygen Management
- CPAP, BiPAP & Trilogy

Under the direction of Dr. **Allen Silvey** – a leading board certified pulmonologist, and a dedicated nurse practitioner, our respiratory therapy team offers a range of specialized services. We are committed to weaning from ventilators when appropriate, conducting bedside weaning parameters along with pulse oximetry and CO2 capnography to monitor residents' progress. In-house services include trach tube changes, downsizing, and removal.
